Summary

I am a software developer and a university graduate with a Bachelor's degree in Information Systems from Universitas Andalas. I completed an internship at Diskominfotik Sumbar, where I gained practical experience in database design and web development. In addition, I also did a freelance project related to GIS website. My fields of interest include Web Application, Mobile Application, and UI/UX Design.

Work Experience

Freelance Web Developer | Mar 2023 - Nov 2023

Freelance - Padang, Indonesia

- Built a GIS campus map web for Universitas Andalas using PHP, CodeIgniter4, OpenRouteService API and MySQL.
- Designed and analyzed system, user, and data requirements through observation of campus buildings, interviews with campus leaders, and study research.
- Built using Model-View-Controller architecture to implement create, read, update, delete (CRUD) with CodeIgniter and OpenStreetMap API to perform spatial functions and present spatial data on map.

Web Developer Intern | Jan 2022 - Mar 2022

Department of Communication, Information Technology, and Statistics of West Sumatra (Diskominfotik Sumbar) - Padang, Indonesia

- Analyze and discussed with programmers to create website interface of DPRD Sumatera Barat.
- Work with programmer to manage the database design of the DPRD Sumatera Barat.
- Complete program code of DPRD Sumatera Barat Website with PHP, CodeIgniter3, and MySQL.
